## Strategy is the KEY to Networking SUCCESS!

Like many successful entrepreneurs and professionals today, you probably attend many networking functions during the year. In fact you probably invest a great deal of time and money at these events. But ask yourself this...

- Do you spend your time in a corner or watching the clock for your chance to leave? Perhaps missing out to the biggest connection you will ever make!
- Does the prospect of walking into a room full of people you don't know make your palms sweat and your mouth go dry?
- Do you ever wonder why you end up with a ton of business cards but rarely get any business from them?
- Do you walk away at the end of an event asking yourself why you spent all this time and money; and all you have to show for it is a lot of solicitation emails and newsletters in your inbox the next two days?

**Master an array of networking skills to help YOU build relationships and grow YOUR business. Here is a sample of what you will learn:**

- The 3 biggest mistakes professionals make when networking
- Keys to creating powerful, effective 15-30-60 second infomercials
- What your body is saying.
- Techniques to lessen your fear of networking
- What to say when you walk into a room
- Secrets from our Q&A panel (answering your questions)
- The #1 secret to attending networking events effectively
- How to write thank you/follow-up notes
- The importance of follow-up
- And much more...
